

# CLEAR PATHWAYS

## 9-8-8 AND 9-1-1 INTEROPERABILITY STRATEGY

The Clear Pathways Interoperability Strategy aligns with the SAFECOM Interoperability Continuum.<sup>1</sup> The Continuum identifies five critical elements that need to be addressed for a successful and comprehensive interoperability solution: governance, standard operating procedures (SOPs), technology, training and exercises, and usage of interoperable communications.

The Clear Pathways Strategy focuses on **governance** and **SOPs** as core components.

### The Clear Pathways Strategy considers how:

- the Interoperability Continuum can be adapted for a behavioral health context
- this work can be adapted to the Ohio landscape
- local communities currently approach inter-system coordination
- replicability may or may not be possible from county to county
